## WHAT IS A PLAYBOOK?

A compilation of the organization's business "plays"

---

---

---

---

---

---

---

## WHAT IS A PLAYBOOK?

- A compilation of the organization's business "plays"
- A description of how to execute the "plays" as they exist today
  - As-is, not ideal
  - In the context of your organization and your culture

---

---

---

---

---

---

---

## WHAT IS A PLAYBOOK?

- A compilation of the organization's business "plays"
- A description of how to execute the "plays" as they exist today
  - As-is, not ideal
  - In the context of your organization and your culture
- A living document and user manual

---

---

---

---

---

---

---

## WHAT THE PLAYBOOK IS NOT

-  A regurgitation of industry standards and "best practices"
-  A copy of how another company may have chosen to do it
-  A set of detailed procedures
-  A strategy

---

---

---

---

---

---

---

---

## THE VALUE OF A PLAYBOOK

---

---

---

---

---

---

---

---

## BENEFITS OF USING A BUSINESS PLAYBOOK

Organization	Efficiency	Cost Savings	Work Quality
Employee Training	Independence	Improvement

---

---

---

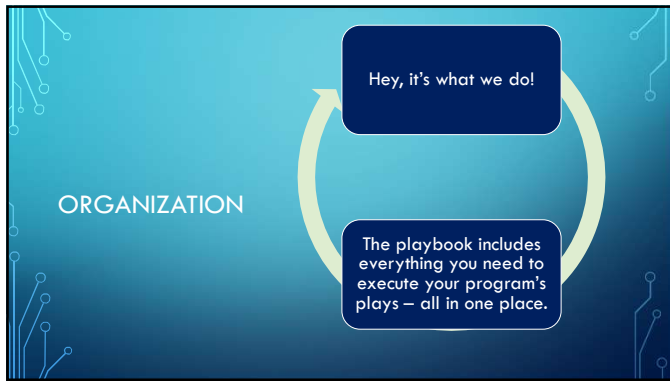

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

**THE PLAYBOOK SHOULD ANSWER THESE QUESTIONS:**

- What would your replacement need to know to do your job for 30-60-90 days?
- What are the things you do, create, monitor, or report regularly?
- What are the questions you answer every day/week/month?

---

---

---

---

---

---

---

---

**BUILDING YOUR PLAYBOOK**

---

---

---

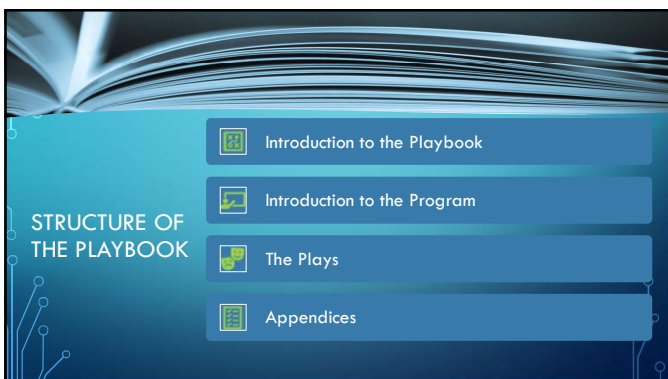

---

---

---

---

---

**STRUCTURE OF THE PLAYBOOK**

- Introduction to the Playbook
- Introduction to the Program
- The Plays
- Appendices

---

---

---

---

---

---

---

---

### THE ARCHITECTURE OF A PLAY

- The purpose of the play
- A description of the play
- The players involved in the play
- The frequency and schedule of the play
- The references, guidelines, standards, checklists, etc. required to execute the play
- The metrics associated with the play

---

---

---

---

---

---

---

### HOW DO YOU DETERMINE WHAT PLAYS TO INCLUDE?

- |  |  |  |                                 |
|--|--|--|---------------------------------|
| 1  | 2  | 3  | 4                               |
| Analyze your existing processes and procedures | Review any guidelines, templates, and job aids | Make a list of job responsibilities for you/your staff | DON'T review an RM textbook.... |

---

---

---

---

---

---

---

### SOME EXAMPLES OF PLAYS YOU MAY BE INCLUDED

---

---

---

---

---

---

---

INFORMATION GOVERNANCE PLAYS	
Inventory	Inventory systems, information, and processes
Assess	Assess proposed new technology solutions
Conduct	Conduct annual IG assessment
Review	Review and maintain policies and other documentation

---

---

---

---

---

---

---

### RECORDS MANAGEMENT PLAYS

Maintain the Retention Schedule

Assess and Audit the Program

Conduct Scheduled Disposition Activities

Administer Recordkeeping System(s)

---

---

---

---

---

---

---

### PRIVACY PLAYS

Conduct data privacy impact assessments

Respond to data subject access requests

Review and maintain privacy disclosures

Report privacy program status

---

---

---

---

---

---

---

INFORMATION SECURITY PLAYS	
Ensure	Ensure PCI compliance
Conduct	Conduct technical security assessments
Review and Maintain	Review and maintain a security incident response plan
Assess and Manage	Assess and manage access controls

---

---

---

---

---

---

---

---

### EDISCOVERY PLAYS

Develop a collection and legal hold strategy

Communicate placement and lifting of legal holds

Apply and lift legal holds

Collect information relevant to investigations or other legal matters

---

---

---

---

---

---

---

---

### EXAMPLE PLAY: SEND BOXES TO OFFSITE STORAGE

**Play: Send Boxes to Offsite Storage**  
Many records are required to be kept for longer periods of time than they are actively accessed and used, because of legal or regulatory requirements. Those records can be stored in our offices, but those take up valuable office space and we pay for that space. We save significant money by moving inactive records to StorageCo, our offsite storage vendor, and freeing up that space for more productive uses.

When records are ready to be moved offsite, the records analyst will inventory each box and place a copy of the inventory sheet inside. StorageCo will pick up the records around the 25<sup>th</sup> of each month. Once the records are stored in their warehouse, they will transmit tracking information to the records manager, who will update the records management system with that information.

Responsible	Accountable	Consult	Inform
Records Analyst	Records Manager	Offsite storage vendor	Records owner

**Schedule:**

- Upon request from business owner, no more frequently than monthly

**Relevant policies and procedures:**

- Records policy, last updated 12/15/2021
- Physical records offsite storage process, last updated 4/30/2020
- StorageCo contract dated 1/1/2022

**Metrics:**

- Number of boxes stored offsite
- Rate of growth or decline, month to month and year over year
- Annual cost of offsite storage

---

---

---

---

---

---

---

---

## WHO SHOULD BUILD THE PLAYBOOK?

-  You
-  The subject matter expert / process expert
-  With management support and signoff

---

---

---

---

---

---

---

---

## WHERE DO YOU BUILD AND KEEP YOUR PLAYBOOK?

- Wherever it can be accessed by the ones who need to access it
- Wherever it can be readily updated

---

---

---

---

---

---

---

---

## MAINTAINING YOUR PLAYBOOK

- Remember it is a living document
- Only as valuable as it is current
- New processes / plays
- Legal or operational updates
- Changes to tools or configuration
- Implement a regular review cycle!
