Cyber Security: Practical Applications

Join us for an in depth look at what we can do as end users to stay on the right side of data breaches, malware, phishing, ransomware and other cyber-attacks. Learn new tools, techniques and ways to assess vendor risk that can help you get a better understanding of the best practices, anti-virus options and organizations available to help you increase cyber security.

Speakers:

John Feist, Applied Cyber Technologies - CISSP, CISA, C|CISCO, CRISC, CEH, CPT

Mr. Feist is a managing member, Chief Information Security Officer (CISO) and Chief Operations Officer (COO) of Southern California Network Security LLC (SocialNetsec ®) and Applied Cyber Technologies.

Matt Stamper, Board of Advisors & CISO in Residence, CyberFlor Analytics - MPIA, MS, CISA, ITIL, CIPP-US

As CISO in Residence at CyberFlow Analytics, Matt works with other CISOs, CIOs, security professionals, and board of directors to better understand the appropriate use and benefits of network behavioral analytics. As part of the CISO in Residence function, Matt is working with the CyberFlow Analytics team on leveraging anomalous behavior detection capabilities in both enterprise and industrial IoT environments.
