Dealing with Unconscious Bias

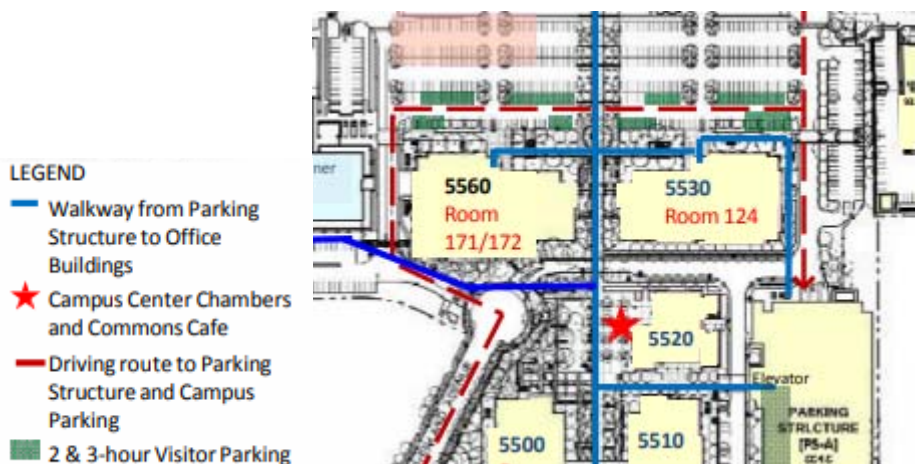

Dealing with Unconscious Bias - We all have it!
What do we do about it?

Our assumptions, without awareness or conscious control determine our likes and dislikes about people, their abilities, potential, character and so much more. Our unconscious bias's help us make hundreds of decisions every single day. This impacts our workplace, our home, our relationships and more. Join San Diego ARMA and learn how to recognize and learn ways to overcome your unconscious bias.

Speaker:

Heather Kenney, County of San Diego

Heather Kenney is the County Records Manager for the County of San Diego. She has worked in records and information management for over 32 years include 21 years in the law enforcement arena. In her current position, Heather is responsible for a broad range of activities including managing the electronic records management software applications, establishing County-wide records management program goals, policies and procedures for the filing, management, protection, and disposition of all County department records and serves as the primary resource to County departments on the legal and technical requirements of documents and records. She is also a Diversity & Inclusion Champion for the County.

Thank you to our 2017-2018 ARMA San Diego Sponsors!
